

## Appendix 2: Checklist for first community visit

<b>Name of community:</b>		
<b>General characteristics of water supply</b>		
<b>Water source:</b> Location(s) (latitude and longitude) Description (registration number)	<b>Catchment age and condition:</b>	
<b>Yearly rainfall:</b>	<b>Water quality:</b> Test results (available/not available) Frequency of testing	
<b>Vegetation:</b>	<b>Volume of water available (storage or flow rate):</b>	
<b>Access roads (to storage tanks, pumps etc):</b> Condition	<b>Access restrictions / permissions needed:</b>	
<b>Water supply infrastructure</b>		
<b>Bore:</b> Location Date drilled Depth (total and standing water level) Casing construction (or inlet) Water flow (litres per minute) Barriers (fencing)	<b>Storage Tanks:</b> Location Number of tanks Age Condition Material Capacity (volume of water stored) Fittings Barriers	<b>Distribution system:</b> Size Age Condition Material Length Fittings Height Depth Bollards or markers Valves Barriers
<b>Treatment system:</b> Location Type of treatment Size Age Condition Material Volume of water treated daily Use of treated water Manufacturer Supplier details Replacement parts	<b>Pump/other fixtures:</b> Location Size Age Condition Material Volume of water pumped daily Manufacturer Supplier details Replacement parts	
<b>Community-level management</b>		
Name Contact details Responsibilities		
<b>Water supply service providers</b>		
<b>Water supply infrastructure:</b> Name Contact details Responsibilities	<b>Health service:</b> Name Contact details Responsibilities	<b>Other service providers or contractors:</b> Name Contact details Responsibilities
