

Carted Water Trucks

Vehicles or containers used for carting water can not be used for anything else. **Do not use for sewage, pesticide or fuel**

- Vehicle must:
- be able to be fully drained
 - be fitted with hoses that are suitable for drinking water
 - be fitted with back-flow prevention

Vehicles must have signs on each side and the rear that read "DRINKING WATER"

Tank must be cleaned and disinfected every 3 months. Clean with detergent and flush with drinking water

Disinfect by spraying 10 mg/L available chlorine on surface, leave for 5 minutes and rinse off with drinking water

The driver must keep a log book with:

- date of delivery and use
- amount or volume of water delivered
- intended use
- delivery address

Keep hoses clean at all times

Always have an air gap between water and the hose when filling a container

Your water supply system
